2022 Programs Summary

8,377 children, teens, parents, caregivers, educators
SERVED through direct service + training

222,243 children, teens, adults
IMPACTED through programs + trainings

46+ Vermonters **VOLUNTEERED** facilitating Family Support Programs and helping to raise funds

All programs are research based, trauma informed, scientifically proven and measured.

PCAVT uses Results Based Accountability in setting and meeting solid performance goals.

The Effects of Covid-19 Statement

Dear Friends,

As you know, 2022 did not see an end to the Covid-19 pandemic. Despite the many challenges, PCAVT remained dedicated and determined to support children, teens, parents, caregivers, educators, and other professionals. Nearly all of our parenting groups, classes, and trainings took place using online interactive platforms. Calls to our Parents Helpline, 1 800 CHILDREN, remained significantly higher than pre-pandemic years.

We wish to thank parents, donors, and community partners for joining together to nurture and protect children!

For Children,

Linda E Johnson | Executive Director

Prevent Child Abuse Vermont promotes and supports healthy relationships within families, schools and communities to eliminate child abuse.

OUR GOALS

1. Prevent Child Abuse Vermont has the public visibility and financial stability to carry out its mission.
2. Citizens of Vermont are aware of the best ways to develop healthy children and families and to prevent child abuse and neglect in its many forms. Empower children to be seen and heard by expressing and sharing their experience and points of view.
3. In partnership with communities across the state, exceptional Family Support Programs are available throughout the state at a level adequate to meet the need.
4. All schools, early childhood providers, child-serving entities, and communities across Vermont are able to meet their obligations around child sexual abuse prevention, including those required to comply with Act 1 (2009).
5. All parents of newborns and toddlers and prospective parents receive critical information that promotes safe and healthy environments, preventing abusive head trauma and preventable infant suffocation.
